Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these Pills are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

As a Family Physic.

From Dr. E. W. Cartwright, of New Orleans.

"Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

For Jaundice and all Liver Complaints.

From Dr. Theodore Bell, of New York City.

"Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

Dyspepsia — Indigestion.

From Dr. Henry J. Knox, of St. Louis.

"The Pills you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

Dysentery — Diarrhœa — Relax.

From Dr. J. G. Green, of Chicago.

"Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

...nternal Obstruction—Worms—Suppression.

...rom Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your Pills, taken at the ...oper time, are excellent promotives of the natural secre... ...on when wholly or partially suppressed, and also very ef... ...ctual to cleanse the stomach and expel worms. They are ...much the best physic we have that I recommend no other ...my patients."

Constipation — Costiveness.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your Pills for the cure of ...tiveness. If others of our fraternity have found them ...efficacious as I have, they should join me in proclaiming ...for the benefit of the multitudes who suffer from that ...mplaint, which, although bad enough in itself, is the pro... ...itor of others that are worse. I believe costiveness to ...ginate in the liver, but your Pills affect that organ and ...re the disease."

...purities of the Blood — Scrofula — Ery... ...sipelas — Salt Rheum — Tetter — Tumors ... — Rheumatism — Gout — Neuralgia.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your Pills purify ...e blood. They do that. I have used them of late years in ...y practice, and agree with your statements of their efficacy. ...ey stimulate the excretories, and carry off the impurities ...at stagnate in the blood, engendering disease. They ...mulate the organs of digestion, and infuse vitality and ...or into the system.

"Such remedies as you prepare are a national benefit, and ...u deserve great credit for them."

...r Headache — Sick Headache — Foul Stom... ...ach — Piles — Dropsy — Plethora — Paralysis — Fits — &c.

From Dr. Edward Boyd, Baltimore.

"Dear Dr. Ayer: I cannot answer you what complaints ...ave cured with your Pills better than to say all that we ...r treat with a purgative medicine. I place great depend... ...on an effectual cathartic in my daily contest with dis... ...e, and believing as I do that your Pills afford us the best ...have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, ...hough a valuable remedy in skilful hands, is dangerous ...a public pill, from the dreadful consequences that fre... ...ntly follow its incautious use. These contain no mercury ...r mineral substance whatever.

Ayer's Cherry Pectoral

...s long been manufactured by a practical chemist, and ...ry ounce of it under his own eye, with invariable accu... ...y and care. It is sealed and protected by law from coun... ...feits, and consequently can be relied on as genuine, ...hout adulteration. It supplies the surest remedy the ...ld has ever known for the cure of all pulmonary com... ...ints; for Coughs, Colds, Hoarseness, Asthma, Croup, ...ooping Cough, Bronchitis, Incipient Consumption, and ...the relief of consumptive patients in advanced stages of ...disease. As time makes these facts wider and better ...own, this medicine has gradually become the best reli... ...e of the afflicted, from the log cabin of the American ...sant to the palaces of European kings. Throughout ...s entire country, in every state and city, and indeed al... ...st every hamlet it contains, Cherry Pectoral is known ...the best of all remedies for diseases of the throat and ...gs. In many foreign countries it is extensively used by ...ir most intelligent physicians. If there is any depend... ...e on what men of every station certify it has done for ...m; if we can trust our own senses when we see the dan... ...ous affections of the lungs yield to it; if we can depend ...the assurance of intelligent physicians, whose business ...o know; in short, if there is any reliance upon any ...g, then is it irrefutably proven that this medicine does ...e the class of diseases it is designed for, beyond any and ...other remedies known to mankind. Nothing but its ...sic virtues, and the unmistakable benefit conferred on ...usands of sufferers, could originate and maintain the ...utation it enjoys. While many inferior remedies have ...n thrust upon the community, have failed, and been ...carded, this has gained friends by every trial, conferred ...efits on the afflicted they can never forget, and produced ...es too numerous and remarkable to be forgotten.

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent-granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, *Commissioner.*

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently to fit him for the business in which he is about to engage.

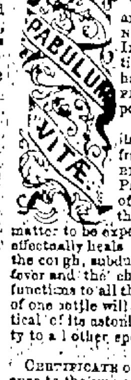
IMPORTANT DISCOVERY!

CONSUMPTION CURABLE

BY THE USE OF

Fousel's Pabulum Vitæ.



This VEGETABLE PRODUCTION has proved itself to be the most remarkable medicinal preparation ever discovered, for the effectual cure of

Pulmonary Consumption,

and also of COUGHS, COLDS, SORENESS OF THE CHEST, BRONCHIAL IRRITATION, and all other affections of the air passages, which have a tendency to produce that FEARFUL MALADY in those predisposed.

This wonderful discovery, from its volatile nature, gives vapors freely, and consequently acts DIRECTLY upon the Lungs and Air Passages, arrests the development of tubercles in the lungs, and in their softening process causes the matter to be expectorated without difficulty, and effectually heals the ulcerated cavity; it quiets the cough, subdues the night sweats, the hectic fever and the chills, and restores the healthy functions to all the organs of the body. A trial of one bottle will speedily convince the most skeptical of its astonishing efficacy, and its superiority to all other specifics.

CERTIFICATE OF DR. A. A. HAYES in reference to the *unequalled virtues* of this great discovery.

"This preparation by chemical analysis was proved to be free from Opium or any of its compounds, nor were any of the Alkaloids present.—It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration."

Respectfully, (Signed) A. A. HAYES,
State Assayer.

A New and Valuable Discovery!

TIME AND MONEY SAVED.

The Washer Woman's Friend and Helper!!

HALGATE'S CELEBRATED

LAUNDRESS' SECRET!

The Quickest, Cheapest, Easiest and Pleasantest mode of Cleansing Clothes yet discovered. No Boiling, Pounding, or Rubbing required, but all performed in simple Warm Water.

THE "LAUNDRESS' SECRET" has been thoroughly tested by the most experienced Laundresses, and has not failed in a single instance to give entire satisfaction. Its tendency is to loosen the adhesive quality of the dirt without injury to the fabric. It gives the garments a beautiful white appearance, and clothes that generally fade when washed by the ordinary soaps, compounds, etc., by this process, are warranted to remain firm; the color is not changed in the least; the wear and tear of clothing that must necessarily attend washings of the old process, is entirely removed, and not one-fourth the labor is required to do the washing of the family. Unlike the ordinary process, the washing is performed in simple warm water, and any kind of fabric can be washed with perfect safety. The washing that now takes half a day to perform, by our process can be done in one hour.

Don't be without it a Single Day.

Will you go on with the old process doing your washing in half a day, scrubbing and rubbing at the wash board, while the means of cleansing your clothes much cheaper, quicker and easier, is at hand? Believing a hint to the wise is sufficient, and leaving the appearance of your clothing "a matter of choice," in your own hands, we respectfully solicit a fair trial of our preparation.

This preparation has recently been used by some 75 families in the towns of Oldtown and Orono, who certify that it is a worthy preparation; that the *boiling is entirely dispensed with and one half the rubbing*, and they cordially recommend it to families and laundresses.

For sale by N. S. HARLOW, Druggist No. 4 Smith's Block, Bangor, Me., who will supply traders on liberal terms.

TRANSIENT ADVERTISING IS INVARIABLY IN ADVANCE.—The necessity of this rule must be obvious to every one, although only those who have gone through with the experience can judge of the inconvenience, expense and loss of a business which opens such a great number of small accounts, scattered over so great a surface. Our customers will understand, therefore, the reason of the rule. They will not fail to see its justice.

Railroad Enterprise.

The present depressed condition of business affairs in our community, and throughout the Union, affords a favorable opportunity for maturing, for the permanent advantage and prosperity of this city, works of internal improvement, the construction of which may be entered upon as soon as the finances of the country are again found flowing in their natural business channels.

A railroad from Upper Stillwater or Oldtown to the slate quarries at Brownville, some 26 or 28 miles, can be built about as cheap, as on the western prairies. All the running furniture, except perhaps freight cars, is already upon the Oldtown road, with which the Brownville road would connect.

This enterprise would largely increase the production of slate, which is found at Brownville and vicinity, in inexhaustible quantities, and of a quality superior to any in the United States, if not in the world. It would undoubtedly from the increased facilities for transportation thus afforded increase largely the production of iron at the Katahdin Works, some few miles from Brownville. It would restore and secure to us the trade of Dover and Foxcroft and adjacent towns, much of which is now lost to us by going west upon the P & K Road from Newport. It would in fact secure to us a most the entire trade of the Piscataquis valley, (which is naturally in no respect second to the Connecticut valley, and is already in a high state of cultivation,) much of which trade is lost to us by the P & K Road. The impetus which would by the accomplishment of this enterprise, be given to the slate and iron business (which unlike lumber is inexhaustible) and to agriculture and consequently mechanical pursuits and manufactures would be most satisfactory. That it would largely increase and maintain permanently the value of real estate in this city, no intelligent person can doubt. It can be built for an amount of money not exceeding the cost of four first class merchant ships. Shall we not have a survey of the route? H

Maine State Agricultural Society Show and Fair.

The Trustees of the Maine State Agricultural Society, at their meeting held in this city last week, voted to accept the guaranty of the citizens of Augusta and hold the Society's Cattle Show and Fair for 1858 in this city, commencing on the 21st of September next, and continuing four days.

The citizens with much spirit and energy, made up a fund of $12 000 as a guaranty against loss. The Trustees have engaged the lot south of the State lot, of Mr Rucker, and will see that it be put into good order, with a well graded half mile trotting course, ample stalls and pens for cattle and other stock, and all the requisite conveniences and fixtures for such a show. For the accommodation of the fair and exhibition of manufactured articles they have engaged the rotunda of the State House, the Agricultural Hall in the basement and, in addition, will erect a temporary building in the rear sufficiently large and commodious to accommodate all exhibitors.

The Trustees have also received the assurances of the gentlemanly and efficient managers and Superintendent of the Kennebec and Portland Railroad, that accommodations of a liberal character will be granted to those who shall travel on said road with stock and articles for the show.

Thus far the arrangements promise well—It now belongs to the farmers, and mechanics, and manufacturers of Maine to fulfil their part in preparing to have a grand show and fair at the time and place designated. Such expositions are useful in a thousand ways—They bring the industrial portions of the State together—they afford opportunities to cultivate acquaintances, to learn new improvements, to note the growth and rising strength of the State, in all the productive and useful arts of life. Especially should the people of Kennebec and the adjoining counties feel a deep interest in this occasion, and we hope and trust that each and every person will do termine to exert his influence in making the show such an one as will increase the credit of their skill and judgment in all the varied departments of farming and mechanic industry.

It seemed due to the central portion of the State, that the State Show and Fair should be held in its midst this year. It is having been accorded to it by the Trustees, we have faith that the people will make it a common cause and enter into it with cheerful enthusiasm and indefatigable energy. If they will do it and turn out their strength they can get up a show of stock that cannot be beaten in all New England. That is saying a good deal, but they can do it if they only try.—*Maine Farmer*

It is currently reported that the administration will testify its gratitude to the members from Ohio who aided in the passage of the Dell ency and English Kansas bills by taking one of the proposed new regiments of volunteers from that State. Messrs Cox, Cockrell, Groesbeck, Lawrence and Pendleton, the Lecompton members from Ohio, will have the disposition of the patronage thus created. It will be some satisfaction to Ohio, which has been so woefully misrepresented in Congress, that she will, by the favor of the administration, be able to get rid of some of her vagabonds. If those who have misrepresented her could also be induced to take service in the new regiment and vacate their seats in Congress, the wound which they have inflicted upon her honor would not be without its balm.—*Boston Journal.*

THE FACTORY.—The Cotton Factory in Augusta has already partially commenced operations, and resume in full next Monday.

BAPTISM.—On Sunday last, fifteen persons were baptised and taken into the Baptist (Rev James Belcher's) Church, in Damariscotta.

At the Congregational (Rev. Mr Carpenter's) Church, in this village, ten persons were admitted to membership.

At the Methodist, (Rev Mr Tupper's) Church, twenty-six converts were baptised.—*Newcastle Democrat*

CONFIRMATION.—At St Stephen's Church last evening, confirmation was administered by the Right Reverend Bishop Burgess to 79 persons, 21 of whom were males, in the presence of a very large and deeply interested audience.—*Portland Argus*

APPOINTMENT.—William Fairfield has been appointed Postmaster at Kennebunk, in place of Eret Willard.

ACCIDENT.—Two young ladies (one a daughter of Mr Ira Stillson of this city) were quite severely injured yesterday afternoon, at the corner of Congress and Lime streets, by being run over by a horse and chaise. There were two men in the chaise, who to say the least, were driving at a furious speed and very carelessly, and the young ladies did not see them in time to escape the disaster.—*Portland Advertiser*

LAWRENCE, KANSAS, April 30,
via BOONEVILLE Mo, May 4.

The State Convention at Topeka was largely attended. Hon H J Adams was nominated for Governor, Col Holliday for Lieut. Governor, and Geo Conway for Representative to Congress. No vote was taken on the subject of Senators.

It was resolved to stand by the Leavenworth Constitution. Mr Parrott endorsed the nominees, who are all radical men. A D R

THE BODY OF REARDON FOUND.—The search for the body of Patrick Reardon, supposed to be buried under the ruins of the late destructive fire in Federal street, was resumed at an early hour yesterday morning, and at a few minutes past ten yesterday forenoon, the body was found in the rear passage of the crushed brick house, corner of Federal street and Milton place.

The safe in which the valuable stereotype plates and wood cuts of Messrs Sanborn, Bazin & Ellsworth were deposited, was opened yesterday, and the contents found to be entirely uninjured. Even the wood cuts had escaped damage from the heat. The safe was of brick and was eighteen by twelve feet in dimensions. The walls were two feet thick.—*Boston Journal*

EFFECTS OF LIGHTNING.—A hard thunder storm occurred in New Haven, Milford and other neighboring places along the Southern line of Connecticut, on Tuesday, April 13th. In Mr. Joseph French's house, Milford, four stoves were demolished, and Mrs Augur's shoes and stockings were torn from her feet.—The crockery in a closet was smashed. Nearly all the inmates of the house, eight or ten in number, were knocked down and some of them badly burned by the electric fluid. The movements of a clock on the mantlepiece were torn from the case and hurled with great velocity about the the room. There was no lightning rod attached to the house. The building was insured against fire. The lightning passed down into the cellar, and out through the cellar wall, eating everything in its way, and leaving a complete wreck behind.

LOOK OUT FOR COUNTERFEITS.—The Boston Journal of Wednesday notices the arrest of Henry E Leffler, for passing a bank bill altered from some other Bank to a "five" on the Lumberman's Bank, Oldtown. The Journal says:

"The altered bill is quite well executed, and liable to deceive, and is a new issue. The words "Lumberman's Bank" form a semi-circle in the centre of the bill in prominent capital letters, which are neatly pasted on the main bill. Leffler was committed to the Tombs to await further action in the matter."

AMERICAN INFLUENCE WITH THE SULTAN.—There is now at Constantinople an American missionary of a high scientific character, (Dr. Hamblin,) who has obtained great influence at the court of the Sultan, by introducing to his notice our railway system and telegraph lines. When the British and French armies were in the East, he constructed two steam flour mills, and thus supplied the Sultan with the means of providing for that army.—*Albany Journal.*

Remarks of Mr. Prentiss of Bangor,

In House of Representatives, Feb 25, on the Resolves relating to Kansas and Slavery.

MR SPEAKER: As I am one of the committee which reported these resolves, perhaps I may be justified in using a few minutes of the time of the House in speaking of them.

At the commencement of the session, the Republicans held the necessary caucuses to nominate candidates for the offices to be filled, and for that purpose only. Since that time, no caucus among the Republicans has been held, and no consultation or agreement of any kind has been had among them as to any line of action to be pursued by the party on any subject. Every Republican member of the Legislature has acted on each subject according to his own ideas of right and expediency.

Whatever, therefore, may be said on these resolves, will be said on the individual responsibility of the person speaking, and will commit no one else. I concur generally in these resolves, and yet I have some opinions and feelings on the subject of which they treat, which they do not fully express.

So strict and severe is party discipline in the Democratic party, and so strong are party ties and associations, that I have a high respect for a man who has sufficient independence and force of character to go right when his party goes wrong, and as I am sure the objects of the Republican party are all right, and trust that all its *measures* will be, I feel that in expressing that respect, I am acting in conformity with the character of our cause, and therefore without detriment to it.

I take a personal pleasure in saying that I respect Governor Walker and Secretary Stanton, for standing by their own principles, and the pledges which, by authority of the President, they had made to the people of Kansas, and for refusing to *lend* themselves to those frauds and tricks by which it was attempted to cheat those people out of their just rights. Their noble conduct in these respects, gives me a new confidence in the stability of the Union—a new hope for my country, a hope that in this country, even in the worst of times, the *integrity and self respect of individual men* may save us from that ruin which party violence and party corruption may seem to threaten.

I consider that those democrats who repealed the Missouri compromise on the doctrine of popular sovereignty, and erected the Cincinnati platform on that basis, and fought the late Presidential campaign upon it, and now turn round and abandon it, because it will no longer answer the purpose of slavery extension, convict themselves of having been dishonest from the first, or at best, the pliant tools of the slave power. But those democrats, north and south, who adhere now, under a great change of circumstances, to the doctrines which they asserted then, and denounce and resist the attempt to force upon Kansas a constitution repugnant to her, are entitled to the praise of *consistency*, and may charitably be supposed to have been sincere, though sadly mistaken, in the beginning.

It is true that Walker and Stanton, and Douglas and Stewart, and Harris, and Wise, and all the other democrats who resisted the Lecompton fraud have done, and are doing, no more than their duty, but in these degenerate times, to do one's duty is worthy of much praise.

There is one principle which was strongly contended for by the Puritans, in the days of Sidney, and Cromwell, and Hampden, which was brought over to this continent in the May Flower, and largely used by the Pilgrim Fathers and which is still dear to every sect and division of the Protestant church. I allude to the *right of private judgment*. No party organization can supercede this right. Any party discipline which attempts to do it, is false and dangerous.

It is a duty which every man owes to his own manhood and to his own soul, to protect his own honor; and keep his own conscience free from all connection with fraud, falsehood, and trickery, however originated, or by whomsoever supported.

Sir Walter Scott, with that fine appreciation of the great and noble which adds so much to the value of his works, has given us a striking example of this right of a man to protect his own honor, whatever may be the commands of party or of power. Lord Marmion, a brave warrior, but a man whose private history was stained with many crimes, called at the castle of the Earl of Douglass to ask shelter for the night, bearing with him, for that purpose, a letter from the King. The Earl though despising the man, in deference to the commands of his royal master, opened his gates and admitted Marmion and his suit, receiving him with a cold and lofty courtesy, yet extending to him and his followers, a liberal hospitality. Encouraged by this hospitality, Marmion, at parting, offered to the Earl his hand. The Earl drew himself up, and indignantly exclaimed:

> "My castles are my king's alone
> From turret to foundation stone,
> The *hand* of Douglass is his own."

The miserable plea of fidelity to party and of Presidential commands, as an excuse for voting for what is not honest, will not answer before that dread tribunal of the future, to which we are all hastening, and where every man, "in the very teeth and forehead of his crimes must give in evidence." Nor will it be received at that tribunal of history by which every public man must be judged, nor will it even be entertained by that lower and nearer tribunal of the people, at the polls of the next election. This last consideration will perhaps have more interest with *some* members of Congress, than either of the first.

Those who have read the leading works of the most original of American novelists, can never forget the fearful distinctness with which the Scarlet Letter, the letter A, is made to stand out upon the garments of the Adulteress. It seems to me that the perpetrators of the frauds connected with the Lecompton constitution, and those who attempt to justify them, and especially those who in either House of Congress, vote to make them effective and triumphant, may well fear that history, with its awful truthfulness and terrible justice, will stamp upon their foreheads the appropriate letters to characterize those transactions.

The commission of frauds and outrages, by obscure individuals, on a remote frontier, is bad enough, but the deliberate sanction of them in Congress, involves, in my judgment, a much higher order of crime, and a much deeper national disgrace. I wish to see Lecompton killed. There are not Republican votes enough to kill it. I hope there may be honest Democrats enough to supply the deficiency. Where men are acting right now, I am not disposed to talk about past errors, or differences of opinion, past or present.

In conclusion, Mr. Speaker, I wish, in all good nature, but with sincere earnestness, to ask my Democratic friends, both in the House and out of it, whether in their sober judgment, *Slavery*, in repealing the Missouri Compromise, in order to get her foot into Kansas, and in her conduct since she got there, has shown a disposition to be just and honest in her choice and use of means to accomplish her ends? Whether her whole conduct in Kansas, with a few exceptions has not been a succession of wrongs and abominations unexampled in the history of the country? Whether she has shown there a decent regard for truth, or any love of *fair play*, or any disposition to be governed by its rules? And, upon the whole whether they (my democratic friends) will not best consult their own consciences, and best promote the good of their country and their own personal respectability, by *quitting* the pro-slavery party which is now connected with so much dishonor, and other [illegible]

...ng the Republicans, or setting up for themselves. We have yet room in our ranks for all right hearted men, but if gentlemen have any prejudices against us, or any hope of bringing modern democracy back to those doctrines of freedom which were taught by the fathers of genuine democracy, we bid them God speed in that holy work.

I will only add that if the future conduct of those democrats who oppose Lecompton, should show that they do not oppose it because it is *wrong* but only because it is *so enormously* wrong as, to be *inexpedient* for their party, though I may admire their sagacity as politicians, I shall be compelled to abate something of the respect which I have expressed for them as men.

THE CHANCES IN THE WEST.—A letter in the Salem Register, from St Louis, says:—

"Those young men who give up a certainty in the East, with the hope of improving their condition by removing West, had better stick to the fore-plain and plough-handle in New England, or, if they do come West, must come prepared to shove the one or hold the other, for clerks and speculators are here already in droves, and must either starve or go farming."

LAWRENCE, STONE & Co.—The adjourned second meeting of the creditors of Lawrence, Stone & Co. was held in the Court of Insolvency yesterday, before Judge Ames, when some thirty additional claims, amounting to gether to about $152,000 were presented and allowed. This sum, together with that previously allowed, makes the whole amount of claims thus far proved, foot up to about $2,875 000.

The Montpelier (Vt.) correspondent of the Boston Traveller writes that the maple sugar season is over, the crop being a full average one or a trifle less than three pounds to the tree. Last year was an extraordinary season, the yield being over five pounds to the tree, or nearly enough, if equally distributed and all kept for home consumption to have supplied every family in the State.

In the year 1632 the General Court of Plymouth Colony make this law, which, from its contrast with our way of doing things, is worth noting:

"That whosoever refuses the office of governor shall pay twenty pounds sterling, unless he were chosen two years going, and whoever refuses the office of counsellor or magistrate ten pounds sterling."

The Boston Traveller states that a second committee is about to visit Washington, to consult with the Postmaster upon the location of the Post Office. The committee is composed of substantial citizens, who are in favor of the Summer street estate, and who have had plans prepared with evidence as to the eligibility of the spot which it is proposed to take.—They are said to be confident of success.

POPULATION OF AUSTRALIA.—According to the last census, the aggregate population of the Austral an colonies amounted on the first of July, 1857, to 1 043 000, of which number Victoria contained 414 000, New South Wales 300,000, South Australia, 106,000, Tasmania, 80,000, West Australia, 14,000, and New Zealand, 130 000.

The editor of the Clinton (N. Y.) Courier, records the astonishing fact that five ladies, all residents of Clinton, on a certain day within the past fortnight, took passage in the stage from Clinton to Utica, and during the entire drive of an hour and a quarter, *not one of them spoke to the other!*

Go away, Hard Times!

I must speak out, and no mistake, I'm in such a sad condition,
To my old patrons, and new friends, in this my second edition—
And let them know, as the times are hard, of which they are aware,
That they and all, as well as I, in these hard times must share.
Then use economy, and call and get clothes cleaned and mended
At number Ten, East Market Square, where you will be befriended.
Your old clothes will look so well, that you will scarcely know
That they were ever worn before, you will find them all altered so.
I live above the most of men, even up two flight of stairs,
Come, ascend with courage and don't faint, but leave behind your cares,
Where I have worked for ten long years with diligence and might,
(To obtain an honest livelihood,) for friends, both day and night.
Now come don't let me wait for work, as I am getting old,
For I love to work to please my friends, of this you have been told.
My prices shall be reasonable to cast aside your sorrows,
And call and get work done by the subscriber,

City of Bangor.

AN ORDINANCE establishing the office of City Physician, and defining the duties thereof.

Sec 1. Be it ordained by the Mayor, Aldermen, and Common Council of the City of Bangor, in City Council assembled, That there shall annually be elected on the fourth Monday of March, a City Physician, whose duty it shall be to attend, under the direction of the Overseers of the Poor, upon all Paupers of the City, when in need of medical aid, including all inmates of the Alms House, Work-House, and House of Correction.

Sec 2. The said City Physician shall annually in the months of May and June and at such other times as the Superintending School Committee may direct, examine the Public Schools of the City, and vaccinate all the pupils belonging to the same, who have not been vaccinated, and deliver to every pupil a certificate thereof, and make a record of the same in a book to be kept for that purpose, and shall forthwith report to the Superintending School Committee the names of those scholars who refuse to be vaccinated, or who neglect after due notice, to present themselves to the Physician for that purpose.

Sec 3. It shall be the duty of the Superintending School Committee to provide, at the expense of the City, all necessary books and blank certificates which may be required to carry out the provisions of the preceding section, and the said records of the City Physician, shall, at the close of his official term be delivered by him to the Superintending School Committee, to be kept in the office of said Committee.

Sec 4. The City Physician shall enter the names of every person or family he may visit in his official capacity, in a book to be kept for that purpose, and regular charges made for every such visit and prescription, and report the same to the Overseers of the Poor at the end of every month, and at the expiration of his official term he shall make a certificate of the correctness of the entries made by him and return said record to the office of the City Clerk, to be then preserved with the other City records.

Sec 5. He shall keep a record of all cases of disease and death which may occur among the Paupers of the City, including the inmates of the Alms House, Work House and House of Correction, embracing the general treatment and result of each case, the age, sex and disease of the patient, which shall be at all times open to the inspection of the Mayor, Aldermen, and Overseers of the Poor, and he shall annually, at the close of each municipal year, and as much oftener as he may think proper, make report to the City Council, in writing, the statistics and other matters of interest in his department.

Sec 6. There shall be kept at the Alms house a medicine chest, furnished under the direction of the Overseers of the Poor, at the expense of the City.

Sec 7. The City Physician shall furnish, at his own expense, all necessary medicines for the Paupers of the City, other than inmates of the Alms House, Work House and House of Correction, and shall receive from the City Treasury for his services, including medicines to be furnished as aforesaid, such sum as the City Council shall annually determine.

Sec 8. In cases of small pox or other infectious disease, the City Physician shall receive such compensation, in addition to his annual salary, as the City Council may deem just and proper.

Sec 9. All ordinances and parts of ordinances inconsistent with this ordinance shall be, and are hereby repealed.

BENJ C MILLER, Secretary

Such times as the present should cause every business man, with a family dependent upon him, to consider what the condition of those he leaves might be should he be suddenly taken away by death. All can now fully note the uncertainty and instability of fortunes made in business. The millionaire merchant of yesterday is to-day the insolvent debtor. To guard against such reverses let every man insure his life for the benefit of his family, which insurance cannot be disturbed by his creditors. The Mutual Benefit Life Insurance Company offers security and advantages not surpassed by any institution in the country—its investments are in first bonds and mortgages on real estate worth more than double the amount loaned. One half of the Premium on Life Policies may be paid by note bearing 6 per cent interest. Dividends are declared annually to those who have paid two Life premiums—there are no stockholders to take any of the profits which rightfully belong to those who are insured for life.

Prospectuses, statements and applications will be furnished (without charge) and all information desired will be given by the undersigned Agent.

N B. Persons residing in any portion of the country, desirous of insuring their lives will be supplied with all the necessary papers and with minute instructions to enable them to make applications by addressing the undersigned.

CONGRESSIONAL.

WASHINGTON, 6th.

SENATE. The business transacted during the morning hour was of an uninteresting nature.

The bill for the admission of Oregon was postponed, and that for the repeal of the fishing bounties act was taken up.

Mr Hamlin addressed the Senate in opposition to the bill.

Mr Hamlin objected to Mr Clay's sneer that the fisheries are merely a local interest. They are so, he said, but no more than sugar growing. The fisheries, however, have a national importance, no nation having ever been prominent in maritime affairs that did not recognize the important relation between its marine and its fisheries. The Senator from Alabama's line of argument was a revival of Mr. Benton's in his report of 1833.

Mr Hamlin would admit that when the bounty was first granted it might have been regarded as identified with the salt duties, but the present system of bounty is based on a departure from that principle, and is not now dependent in any manner on the quantity of salt, but on the tonnage employed. He referred to the care taken by other nations to foster their fisheries, instancing Venice, Holland, whose Amsterdam is built of fish bones, Spain, France, and Great Britain. The Senator from Alabama asks why not rely on the commercial marine to recruit the navy. A sufficient answer is that of violation of law. Three-fourths of the whole number of seamen employed are foreigners. Mr Clay estimated from treasury sources the whole number of fishermen at 13,000, but the treasury department knew no more about it than his (Hamlin's) horse. Probably the fisheries educate 30,000 American seamen. This nursery of seamen should be regarded in the same light as the military school at West Point, or the naval school at Annapolis.

Mr Mason here moved an executive session, at the close of which the Senate adj'd.

HOUSE. The House voted on the various amendments to the legislative, executive, and judiciary bills.

Mr Ritchie spoke against the resolution proposing the abrogation of the Clayton Bulwer treaty, arguing that there is no particular emergency which requires it.

Mr Clingman said we ought to be free from the treaty, so that when we wish to acquire that territory we may do it lawfully.

Mr Ritchie replied that in its abrogation we open the conflict for the possession of that country. He was sorry that Mr Clingman quoted the Ostend Manifesto with approbation, as to be looked on it as an evidence of covetousness and imbecility.

Mr Kelsey moved to table the resolution reported on Tuesday from the Committee on Foreign Affairs proposing the abrogation of the treaty.

Negatived by 47 against 107.

Mr Sickles of N. Y. moved the postponement of the subject till Tuesday, when he wished to express his views, but this motion was cut off by the House seconding the demand for the previous question, upon which the resolution was ordered to be acknowledged by 97 against 56. Without final action, the House passed to the consideration of other business.

Mr Haskins of N. Y. offered a resolution which was adopted, setting forth that as Robert W. Latham, who was summoned before the committee to investigate the circumstances attending the sale and purchase of Wilkinson's Point for fortification purposes has failed to appear, therefore,

Resolved, That the Speaker be directed to issue his warrant to the Sergeant-at-Arms to take the body of the said Latham, wherever he may be found, and bring him before the bar of the House to answer for contempt of its authority.

The House resumed the consideration of the Senate bill for the admission of Minnesota into the Union.

Mr Smith of Va., made a speech against the bill on account of the alien suffrage clause in the constitution.

Messrs Millson of Va., Phillips of Penn., and Sims of Ohio, denied the right of Congress to interfere with the rights of the electors in the States. Adjourned.

From Washington.

WASHINGTON, May 6.

The President has not yet designated his acceptance of the two volunteer regiments, nor is it probable he will do so till Congress shall make the necessary appropriation for their support. The estimates are not yet made. This determination of the President has caused great disappointment to Western men who were led to believe that the regiments would be accepted as soon as the deficiency bill passed.

Arrest for Murder.

CHICAGO, 6th.

A man named Henry Gumperts was arrested last night for the murder of the woman whose remains were found in a barrel at the Hudson River R. R. depot in New York some time since. He says that she hung herself in his room, but confesses that he cut up and shipped the body, not knowing how else to dispose of it.

SMITH'S ELECTRIC OIL.

This preparation, which has made such speedy cures in Philadelphia and many other places, begins to attract almost universal attention, and elicit comments of every kind. Some say it is IMAGINATION. Of course they assign any thing but the real and philosophical reasons.—Inflammatory Rheumatism, Gout, Palsy, Burns, Piles, Neuralgia, Salt Rheum, Erysipelas, Scaly Eruptions of the Skin, Womb Complaints, Abscesses, Croup, Asthma, Indolent Swellings, Stiff Joints, Felons, Wounds, and Sprains, Broken Breast, Hemorrhage, Sore Throat, Frosted Limbs, Acute Nervous Pains, Tooth, Ear, and Headache, Deafness, &c., and Teething children are sooner cured in from 5 minutes to a few days simply by the IMAGINATION. Not any have used this oil without deriving some special benefit within an hour, and many are they who have been perfectly cured of the diseases very speedily.

'*Large Bottles Ten Times the Cheapest.*
☞KEEP WELL CORKED.☜

Use according to directions. Apply with the warm hand only—eat plain food—drink no coffee.

A CARD.

To Druggists and Merchants of Maine.—For the convenience of dealers and individuals of this State, I have appointed H. H. HAY & CO., of Portland, my Wholesale Agents for the State of Maine, and they will be at all times supplied with all sizes of my "Genuine Electric Oil." I would urge on all dealers in medicine to order from Messrs. HAY & CO. a supply of my Oil at once, that they may be able to answer the earliest demands.—They will also furnish each dealer with Show Cards, Posters, and 1000 Circulars, with their name printed thereon as agent.

Davis' Pain Killer gives Universal Satisfaction.

Dear Sir—In justice to this valuable medicine, I must say, that I have never sold an article which gives such universal satisfaction to all who have used it. I have never had a medicine which has met with any thing like such a rapid sale as your Pain Killer, and its virtues are the topic of conversation in many places in this vicinity. I have recommended it for the cure of fever and Ague, and warranted it, and it has cured cases in twenty-four hours. In conclusion, let me say, that wherever it has been introduced into a family it is regarded as an indispensable medicine, and is kept constantly on hand.
W. W. ROBERTS, La Port, Ind.

This certifies that I was afflicted with ague and chill fever for several years. I was persuaded to try Perry Davis' Vegetable Pain Killer,—took part of a bottle, and was perfectly cured. I have not had a chill since beginning with this medicine. My sister being afflicted, applied the same remedy, and found almost immediate relief, and has felt none of the gue symptoms since.

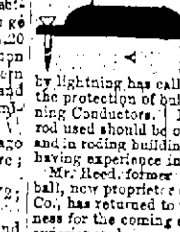
Otis' Lightning Rods.



☞*The only Patent which affords absolute Protection against Lightning*, as demonstrated by science and experience.

This Rod has been extensively used thro' the Southern & Western States, West Indies and the Canadas, since 1851, and though it has been struck in hundreds of instances, it has never *failed to protect*.

The great amount of damage done recently by lightning has called attention, as it should, to the protection of buildings by the use of Lightning Conductors. It is all important that the rod used should be one that *will give protection*, and in roding buildings it should be done by one having experience in the business.

Mr. Reed, former partner of B. F. M. Kimball, now proprietor of the patent for Penobscot Co., has returned to this city to commence business for the coming season. Having had large experience, he assures the public that all his work of this kind will be done in a thorough, neat, and scientific manner.

☞Samples of this Rod, and certificates of its merits from many of the most eminently scientific men in the country, may be seen at D. M. HOWARD'S Store, on Exchange street, No. 15; and at Dodge's Hotel and the Franklin House, Harlow st., Bangor.

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your buildings at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person, with a jack-knife, can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of F. B. MILLS, Exchange street, Bangor, where I shall remain for a few weeks. Town rights for sale.

THE CRYSTAL OIL LAMP,
For Burning the Crystal Oil,
Combining Economy and Safety!
PATENT RIGHTS
FOR STATES & COUNTIES FOR SALE!

This important invention for producing the *cheapest* light in the world, is now perfected, and offered to the public. Numberless other attempts have been made to produce a cheap light, but were attended with such inherent objections as to destroy their utility and adoption. But the Crystal Oil Lamp, while it is the *cheapest*, is both safe and agreeable in every position, making a *clear, white and brilliant flame*, entirely free from *smoke or odor*. There is no danger from explosion, but is *perfectly safe* under all circumstances. The oil can be used in any place without *fear* of soiling the nicest garments. The lamps are *simply* arranged and perfectly controlable by the children and domestics, and so constructed that the light can be varied in a moment from that of one to eighteen or twenty ordinary lamps. While it is free from the disagreeable smell arising from the Kerosene, and the danger attending the use of burning fluid, it is found upon scientific comparison to produce

As much LIGHT for ONE CENT as Kerosene will for Three Cents, or Burning Fluid will for Six Cents,

Thus saving five-sixths of the entire amount now expended, or the price of the lamp in about a month. They are adapted to all situations, making the cheapest and most desirable light for every place—the largest halls or churches as well as private dwellings. The patent on this lamp for the different States and Counties throughout the Union, with the exclusive sale of the Crystal Oil, is now offered to the public, presenting a rare opportunity for merchants to secure for themselves the monopoly of a trade entirely free from opposition. Facilities are completed for the manufacture of the lamps in such quantities that they will be furnished to the purchasers of rights in any style, at such a cost as will yield an almost incredulous profit. These rights will be closed off immediately, and the lamps and oil delivered as soon as desired. As no lamps or oil will be sold to any but purchasers of rights, all letters making the request will not be noticed. Communications addressed to the "Crystal Oil Lamp Co.," No. 5, Merchants Row, will be promptly attended to.

STEAMERS.

SUMMER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine!

PASSAGE $5,00—including Fare and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

For freight or passage apply to
EMERY & FOX, Brown's Wharf, Portland. H. B. CROMWELL, Pier 12 N. River, New York.
Portland, April 2, 1858

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight,* thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers; thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent, No. 16 Broad Street, Boston.

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. P. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00
Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

Blackwood's Magazine

AND THE

BRITISH REVIEWS.

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (Conservative.)
2. THE EDINBURGH REVIEW (Whig.)
3. THE NORTH BRITISH REVIEW (Free Church.)
4. THE WESTMINSTER REVIEW (Liberal.)
5. BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory and Radical—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of ADVANCE SHEETS from the British Publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

American Safety Paper.

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, patented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$20 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles, it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

To Mechanics, Inventors, and Manufacturers.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January, 1858, said premiums to be distributed as follows—

For the largest list $300; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $90; 7th, $80; 8th, $70; 9th, $50; 10th, $60; 11th, $40; 12th, $35; 13th, $30; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1858.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents *extra* on each year's subscription to pre-pay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates.—Five Copies; for Six Months, $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $8; Ten Copies for Twelve Months, $15; Twenty Copies for Twelve Months $28.

For all Clubs of Twenty and over the yearly subscription is only $1.40.

The new volume will be printed upon fine paper, with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 600 to 600 finely executed Engravings, and notices of American and European improvements, together with an Official List of American Patent Claims, published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country. MUNN & CO., Publishers and Patent Agents, 128 Fulton-st, New York.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837,)

76 State Street, opposite Kilby-st., *BOSTON,*

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents.

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Com'r of Patents."

WORLD'S BLESSING!

RHEUMATIC, NEURALGIC & SPINAL BALM.—*A Miracle of the Nineteenth Century.*—A son of Mr. L. Colbreth has been suffering the last two or three weeks with a severe case of Rheumatism—so much so that he was prostrated, and was unable to move himself in bed; and his friends considered him dangerously sick. Dr. J. B. N. Gould, of Boston, who has discovered a remedy for Rheumatism, Neuralgia, and Spinal Disease, arrived in town on Saturday, and has taken rooms at the Elm House. The Doctor was called on to treat his case, and in one hour from the time he applied his Rheumatic Balm he was able to leave his bed and walk his room, and is now free from rheumatism. This is, indeed, a wonderful discovery. [From the Eastern Argus, Nov. 24'57.]

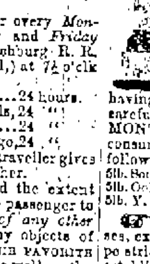
WHOLESALE—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee,)
No. 8 Broad, near State Street,.........Boston.



Supply the best, finest and purest articles, at the *lowest Cash prices*. Their Stock consists of

Teas, Coffees, Chocolates, All-spice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum or Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure* and *genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following scale of prices, viz:

5lb. Souchong Tea,	1,75	5lb. Mocha Coffee,	1,10
5lb. Oolong Tea,	2,00	5lb. Java Coffee,	1,00
5lb. Y. Hyson Tea,	2,50	5lb. good Coffee,	1,00

The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

Be careful to observe that all our Taraxacum has our trade mark—"Chinaman, Grinding Coffee"—as there are many imitations of our article *called* Taraxacum in the market.

To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock, and our prices, as compared with those of any other house.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE. TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.

Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 167 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copavia and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No. 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered* by Velpeau, Lalleman, Roux, Ricord, &c. &c. Price $3 each, or four cases in one for $9, which saves $3; and in $27 cases, whereby there is a saving of $9.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar cases sent as usual, but not free of carriage.

BIOGRAPHY OF DR. KANE, FLETCHER'S WORK ON BRAZIL. The Agent has left us a few copies of the above Works, which can be procured at the Bookstore of H. F. DUREN, Hammond Street, opp. City Hall.

Premium awarded to T. C. BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts, at the Vermont State Fair, held at Burlington, Vt., Sept. 9, 10, 11 and 12, 1856.

MILLER'S CONDITION POWDERS

For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season, with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. At these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Hots, &c., all of which will be prevented by giving one or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clean the water, and invigorate the whole body, enabling the animal to do more work with the same food.

The action of these powders is directly upon the secretive glands, and therefore, all diseases arising from or producing a bad state of the blood are speedily cured by them. Also, colds and surfeit of any kind are cured by one or two of those powders, if given according to directions.

In all cases of Horse Distemper, they should be given at the first symptom to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.

We, the subscribers, hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen, and others, dealing in or keeping Horses and Colts.

They will clean the Worms and Betts out of a Horse's stomach, and give him a good appetite for his food, and a good coat.

They are also good for the Heaves, and for a Cough, and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed. (Signed by)

Timothy Winn—Mr. Butler would say that Mr. Winn is the proprietor of the Canada House and Stage office on Stanstead Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt called the Know Nothing, which was sold at $1800 at four years old.

Erastus Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high prices. This gentleman raised and sold the bay horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Bony, which has been taken to California, and is held at $15,000. Mr. Lee keeps from 40 to 50 horses and colts, and makes great use of Miller's Condition Powders.

Wm. B. Hoyt—keeps the Lyndon House and Livery Stable at Lyndon, Vt.

H. Heath—drives from Lyndon to St. Johnsbury.

A. B. Flint—St. Johnsbury, Vt., dealer in horses.

Geo. A. Merrill, St. Johnsbury, Vt., Master of Transportation on Railroad.

H. A. Quimby—Merchant, Lyndon Centre, Vt., and keeps the Powders for sale.

We, the undersigned, fully concur in the above recommendation of Miller's Condition Powders.

ADDRESS

To the People of the United States.

The Human System is infested with three distinct kinds of

WORMS,

Namely—The Tape Worm, the Round or Stomach Worm, and the Seat, or Pin Worm,

each having their peculiar action upon the system, in accordance with the abundance that may be lodged either in the stomach, intestines, or rectum, or the places they may inhabit.

"WHAT SHALL I TAKE?"

Why, purchase a 25 cent Bottle of

HOBENSACK'S

WORM SYRUP,

For, by using it according to the directions, you can cure yourself and children of

WORMS!

It is certain to cure you, as that you are conscious of your own existence; and if you are suffering after reading this pamphlet you must attach your leading a miserable existence to your own carelessness; for if any of the symptoms laid down in the pamphlet are visible, or felt, you need no longer doubt, but become satisfied that Worms are the cause of all your suffering. To you, then, I confidently recommend the use of my

WORM SYRUP.

From the knowledge of the powerful vegetable ingredients of which it is composed, together with the numerous uninvited Testimonials I am daily receiving from families and others, who have been restored to health by a timely use of the

Vegetable Worm Syrup.

"Mother, I cannot take it!"

How often is this said by the many children who are drugged with Castor Oil, Turpentine, and such like nauseous doses by their parents for WORMS, simply because they are led by the ignorant to believe they are CURE-ALLS.

But that difficulty is now obviated by the use of my

WORM SYRUP,

which is compounded in such a manner that I have never known a single case in which they have

REFUSED TO TAKE IT!

as it is made in the form of a Syrup, and palatable to the taste of the most fastidious; and children, rather than refuse to take it, have actually been known to cry for it; so parents will find no difficulty in getting any child to take it—and yet, while it is so pleasant to the taste, it is the

Most Certain and Effectual Medicine EVER DISCOVERED!

and can be administered to the most *tender infant* with decided benefit.

Where BOWEL COMPLAINTS and DIARRHŒA have made them weak and debilitated,

ONE SINGLE DOSE

destroys the venom from the system, many times of the poor suffering children.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of the complaints that afflict mankind originate in one of these, and consequently these Pills are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose, as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious *dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your PILLS, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS *purify the blood.* They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE — SICK HEADACHE — FOUL STOMACH — PILES — DROPSY — PLETHORA — PARALYSIS — FITS — &c.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you *what* complaints I have *cured* with your PILLS better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.
